

HR & PAYROLL

Efficiencies within payroll and HR can help companies to focus on their core operating functions to compete with a leaner operating model and higher profit margins. Done properly, it can also mitigate errors that may cause slowdowns and be costly to fix. By streamlining payroll process through our state-of-the-art software, companies can better manage their human resources division with less effort.

Concept Group is the South Pacific distributor of the Ascendar Pay HR and Payroll System, a state-of-the-art software product used by leading companies that helps companies more effectively manage their human resources. Our value-added approach blends expertise in the software and our extensive experience in human resources, to ensure that your company maximizes the benefits from its usage.

Our solutions include:

- Payroll streamlining
- Regulatory compliance
- Superannuation
- Worker's compensation
- Deductions management
- Bonus payments

Concept Group is committed to helping organisations develop and succeed in Papua New Guinea - join the many clients who are already experiencing the benefits that working with Concept Group brings.
